### **Canadian Northern Extensions**

I have 500 lots in Plan 14, immediately east of First Street and South of Southern Avenue and adjoining the NEW CANADIAN NORTHERN YARDS. These lots are perfect in every respect and must rise in value rapidly owing to the large expansion of C.N.R. yards and shops in the South-east part of the City. The tremendous future traffic of the Canadian Northern from the coast territory comprising the South halves of British Columbia, Alberta and Saskatchewan MUST FLOW THROUGH BRANDON. The Crow's Nest Pass, Lethbridge, Calgary, Saskatoon, Moose Jaw, Regina and Estevan traffic must all converge to Brandon. Do you see now why the Canadian Northern built such a magnificent Hotel and Station and are now undertaking such great extensions of yards, shops and round-houses in Brandon? They are preparing for the GREAT FLOW OF TRAFFIC WHICH WILL FOCUS AT BRANDON.

# Preface

---

We present the fifth edition of Henderson's Brandon City Directory. The canvass of the City, necessary to the publication of this work, clearly indicates that the growth and development which we have had to report in previous issues is of a permanent character, and we have endeavored to faithfully chronicle this progress, for it is generally recognized that there is no better means of spreading information concerning a city, or of making known its commercial and social advantages than through the medium of a thorough up-to-date City Directory. Such a work we have endeavored to make this present issue.

## **Population of Brandon.**

It is customary for Directory Publishers to give an estimate of the population of a city based upon the number of names the Directory contains. The 1913 Directory has 7,270 individual names not including names of firms and corporations, which we multiply by 2.50, which allows for women, children and those names not taken in the enumeration.

In adopting the multiple stated there is the same probability that the publishers have been as much conservative as liberal.

The increase in population recorded is definite. This should be regarded as an estimate of population.

## **It is not a Census.**

In submitting the result of our work, as shown in this volume, the publishers desire to thank their subscribers and the public generally, for the unfailing courtesy shown its representative.

Yours truly,

HENDERSON DIRECTORIES LIMITED.

March 17th, 1913.

### BRANDON FIRE DEPARTMENT

Headquarters: Princess Avenue cor. Seventh Street

Chief—John Melhuish

The department consists of nineteen permanent (fully paid) fire-  
men.

The equipment consists of one steamer, two chemicals, two hose  
wagons, one hose reel, one aerial ladder, one hook and ladder wagon  
and 12 horses, also one 80 horsepower combination motor truck.

There are 130 fire hydrants, distributed throughout the city. The  
fire pressure from the waterworks pumping station is 140 pounds  
with a total pump capacity of  $3\frac{1}{2}$  million gallons in 24 hours. It is  
a direct pumping system, there being no reservoir or stand pipe.  
The electric fire alarm system has 36 boxes.

### CITY WATERWORKS

The waterworks pumping station is situated at the corner of  
26th Street and McDonald Avenue and north of the C. P. R. track.  
It is  $1\frac{1}{4}$  miles west from the City Hall.

Superintendent and Chief Engineer—A. W. Shaw; assistant en-  
gineers, John W. Anderson, Thomas D. Berry, D. Taylor.

The supply is taken from the Assiniboine River with a 40-inch intake to the pumping station which is 1,000 feet south of the river. The system is what is known as direct pumping, there being no reservoir or stand pipe. The plant consists of one two million gallon D'Auria high duty pump, two 1,200,000 gallon Worthington pumps, eight 500,000 gallon pressure filters, operated by four 75 horse power boilers and one 1,200,00 steam turbine centrifugal pump.

The engine room is 36x44 feet, two filter rooms, one 36x44 feet and one 33x60 feet, and the boiler room 30x44 feet. Addition to boiler room 46 x 82 feet, 300 horse power boilers. There are 1,800 domestic services, of which 500 are on meter, and 130 fire hydrants. A domestic pressure is maintained at 85 pounds, while for fire purposes the pressure is raised to 140 pounds at the station. The total capacity of the pumping plant is 3½ million gallons for 24 hours.

### PUBLIC WORKS AND IMPROVEMENTS

The City has 28 miles of water mains, 23 miles of sewers, 49 miles of granolithic sidewalks, 18 miles of graded streets, 15 miles of boulevards and 130 fire hydrants. Permanent steel and concrete bridges are constructed over the river at First and Eighteenth Streets.

### SYSTEM OF NUMBERING HOUSES

The system of house numbering adopted by the City of Brandon is the Philadelphia or Decimal system. By this system an even hundred numbers are allotted to each block and the principal advantage of the system is that the number indicates how many blocks distant it is from any given point on the street or avenue.

On avenues which run east and west a number is allotted to every twelve feet, and on streets which run north and south a number is allotted to every fifteen feet.

Odd numbers are located on the east and north sides, and even numbers on the south and west sides.

The affix "east" is used to indicate avenues that number eastward from First Street and the affix "north" is used to indicate streets that number northward from Pacific Avenue.

**Pacific Avenue** is taken as the basis for all streets running south starting at number 1 and going southward 100 to the block to the southern limits of the City.

**Assiniboine Avenue** is the basis for all streets running northward starting at number 1 going northward 100 to block to the northern limits of the City.

**First Street** is the basis and dividing line for all avenues which run east and west. Starting at 100 and going westward 100 to the block to the western limits of the City, and again starting at number 1 and going eastward 100 to the block to the eastern limits of the City.

**Rosser Avenue** and all avenues running westward from First Street are intersected as follows:

Number.

- 100 First Street
- 200 Second Street
- 300 Third Street
- 400 Fourth Street
- 500 Fifth Street
- 600 Sixth Street

 1000 Hawthorne Avenue  
 1100 Madison Avenue  
 1200 Lexington Avenue  
 1300 Clark Avenue  
 1400 Spadina Avenue  
 1500 Wellington Avenue, the southern boundary of the City.

### TRANSPORTATION FACILITIES

The City is connected by four great trunk lines, viz., the Canadian Pacific, Canadian Northern, Great Northern and the Grand Trunk Pacific Railways. The construction of the Hudson's Bay Railway will assist in making Brandon the distributing point for all the produce of western and southern Manitoba together with the eastern portion of Saskatchewan for the world's nearest market.

Brandon is the second divisional point on the C. P. R. system west of the Manitoba boundary in the very heart of the Province.

The Canadian Northern Railway Company's new main line from Port Arthur to Regina gives Brandon a fast through passenger service. This Company realizes that Brandon is one of its most important divisions.

The Great Northern terminal from St. Paul is located in the business centre of the City. Its handsome passenger depot facing and extending across 12th Street close to Rosser Avenue, substantial brick freight sheds and offices have been erected by the Company adjacent to its passenger depot. The Company finds it necessary to make still further provision for the increasing traffic. An extension of this company's lines is to spread its system out all points of Brandon.

The Grand Trunk Pacific's connecting line gives Brandon a fast service to Edmonton and intervening points, as well as providing the City with closer freight rates.

## BRANDON EXPERIMENTAL FARM

The Experimental Farms adjacent to the City on the north-west, the farm buildings being about  $2\frac{1}{2}$  miles from the business centre. The farm is 652 acres in extent, four hundred of which are in the valley of the Assiniboine River and the balance on the sloping sides and upland. There is thus a variety of soil and exposure.

The farm was established in 1888 by the government of Canada for the purpose of testing varieties of grain, fodder crops, roots, vegetables, fruits, trees, etc., and of testing methods of handling the land best suited for Manitoba conditions. Feeding experiments are also conducted with cattle, swine, sheep, etc.

The farm is open for the general public to visit. About 10,000 on an average visit the farm annually, principally during midsummer when the crops are looking the best.

# Advertise Your . . . Good Things!

¶ Many a limping business is kept from healthful development by the firm's morbid aversion to publicity.

¶ Perhaps they are honestly so conscious of the excellence of their wares that they expect the busy world to search them out. But the busy world hasn't time.

¶ If you have a good thing to sell, proclaim it. The world wants good things, but it can't discover them in hiding places. Bring them into the open market by advertising them.
